

PHOTO LAB

Jean Grant

Our last major “colorful” work was on Emily Teeter’s Egyptian Gallery book, and we are looking forward to doing photography of the East Gallery objects.

Volunteer Irene Glasner is still putting up with us after all these years, for which we are grateful. Maybe we will see more of her now that her husband has retired from teaching Economics!

I would also like to mention Volunteer Pam Ames, who has been available as driver, using her car to help the Photo Lab get equipment repaired and to get film to the processor expeditiously.
