Access to the UChicago Guest Wireless

To be able to connect to the UChicago network without being a UChicago member, you need to have a guest account, usually set up by the Oriental Institute IT Department.

Your access credentials for this course/workshop are:

**Username:** SymposiumOI2018  
**Password:** Outward-Appearance

1. To access the wireless, connect your device to the wireless network ‘uchicago guest’.
2. After a few seconds, the connection will be established and you will see the login screen.
3. Enter the credentials mentioned above and click ‘Login’.
4. A few seconds later, a white screen should confirm with a tiny ‘Success’. Access has been established.

Should you have any trouble connecting, please contact the Oriental Institute IT Department (oi-it@uchicago.edu).
