

## ERICA REINER

**Erica Reiner** continued to read proofs of volume P of the Chicago Assyrian Dictionary. She read a paper in May in Ann Arbor, Michigan, with the title *A Tale of Two Dictionaries* at the Biennial conference of the Dictionary Society of North America where the completion of the Middle English Dictionary was celebrated. The paper prepared for the conference “Under One Sky” held in London in June was read by a colleague when she was unable to attend in person.

Also in June she had the opportunity to attend the memorial service for Oliver Gurney in Oxford and to renew contact with the Fellows of All Souls College and colleagues at Oxford University’s Oriental Institute.

Her contributions to the *History of the Language Sciences* (Berlin: de Gruyter, 2000), to *Studies in Assyriology in Honour of W. G. Lambert*, and to the anniversary volume honoring Klaas Veenhof appeared in the course of the academic year 2000/2001.
